

I hope you will kindly honor the wishes of the Governor and the people of the state of New Jersey by not diluting our DO NOT CALL LIST legislation. We do not wish to hear from telemarketers, even those with whom we have done previous business. If we want to do further business with any entity, we will call them. We pay for our phone service. It should serve us who pay the bills -- not the people using our phones to serve themselves. I think you should strengthen the Federal DO NOT CALL legislation to match ours!
